

Committed to Value Based Outcomes

At Sorensen, Wilder & Associates, we have been assisting clients to improve and effectively manage their Safety and Security Programs since 1990. We offer a complete line of Safety/Security Assessment Tools; Development of Customized Safety Policies/Procedures; and Extensive Employee Training Programs.

As a value-added service for our clients, we can also provide onsite assistance to your management team during the implementation phase of enhancements to your Safety and Security Program.

For the past decade we have helped companies save money, cut their losses and most of all, maximize safety for employees and customers. There has never been a better time to address your company's safety and security issues. It only takes one negative incident to quickly erode your customer base and tarnish your company's good reputation.

For more information on how your company can benefit from the services we offer, call us toll-free at 800-568-2931.

A Successful Safety & Security Program Starts With A Qualified Assessment

*"Put a camera here...
Install an alarm there...
Add more guards here...
Prohibit parking there..."*

The list of quick fixes goes on and on. We see it all too often.

Now more than ever, companies have become very security conscious. Recent events have triggered concerns across the nation. Yet few companies have begun the process to determine the efficacy of their own program, identify where opportunities to improve exist, or how to cost-effectively make the needed improvements. As a result, they often end up spending thousands of dollars on hardware, software, and staffing that may not have been necessary.

A sound program starts with a thorough assessment by highly qualified professionals. At Sorensen, Wilder & Associates we have been assisting companies improve their safety and security programs since 1990. We begin with a comprehensive assessment and provide you with a detailed analysis of our findings. Then in partnership with your management team, we develop a plan to address each identified area of vulnerability.

Components of an Assessment

Our assessments consist of much more than just a sight seeing tour of your facility. We perform a detailed analysis of your current Safety/Security Program, as well as other areas of your company's operations where the potential for losses may exist.

Our comprehensive assessments include:

- Security Staffing and Operations
- Safety/Security Policies and Procedures
- Physical Security Measures
- Access Control Systems
- CCTV Systems
- Alarm Systems
- Parking Lot Security
- Perimeter and Grounds
- Security Department Education & Training
- Security Training for Non-Security Staff
- Safety/Security Quality Management Program
- Interviews with Staff
- In-depth Assessment of Physical Plant
- Analytical Methods for Solving Security Issues

At Sorensen, Wilder & Associates we do not believe in the use of "boiler plate" programs. Every facility is unique and our services are customized to meet your company's individual needs.

The Principals of Sorensen, Wilder & Associates

Chris Sorensen, CHPA has been involved in Safety and Security Management since 1980. A recognized expert in Security System Design, he has worked with some of the largest and most respected businesses and healthcare organizations in the Midwest in designing Access Control, CCTV, Infant/Child Protection Systems, Elopement Prevention Systems, and Management Plans.

After joining S. Wilder & Associates in 1992 as a consultant, he became a partner with the firm in 1996, when the name was changed to Sorensen, Wilder and Associates. Since then, he has consulted for Hospitals, Nursing Homes, Government Agencies, Schools, Law Enforcement, Fire Service, EMS, Retail, and Industry.

Steve Wilder, CHSP started his career in Safety, Security, and Risk Management in 1983, serving clients in Hospitals, Long Term Care Facilities, Manufacturing, Retail, Government, and Industry. In his career, Mr. Wilder has served as Director of Risk Management, Director of Safety/Facility Management, and as Corporate Safety/Security Director. He has developed

Management Programs in Safety, Fire and Life Safety, Hazardous Materials, Security, Utility Management, Equipment Management, and Emergency Preparedness.

Originally the founder of S. Wilder and Associates, Inc., he has been consulting in Safety, Security, and Risk Management Program Administration since 1990. He is a licensed Paramedic, and is also Chief of a suburban Chicago fire department.
